PROOF OF PUBLICATION

(2015.5 C.C.P.)

State of California)
County of SAN DIEGO) ss

Notice Type: GOV - GOVERNMENT LEGAL NOTICE

Ad Description: Adoption of Amended Rule 69.3.1 - Stationary Gas Turbine
Engines 02/24/2010

I am a citizen of the United States and a resident of the State of California; I am over the age of eighteen years, and not a party to or interested in the above entitled matter. I am the principal clerk of the printer and publisher of the SAN DIEGO COMMERCE, a newspaper published in the English language in the city of SAN DIEGO, county of SAN DIEGO, and adjudged a newspaper of general circulation as defined by the laws of the State of California by the Superior Court of the County of SAN DIEGO, State of California, under date 12/13/1991, Case No. 631749. That the notice, of which the annexed is a printed copy, has been published in each regular and entire issue of said newspaper and not in any supplement thereof on the following dates, to-wit:

01/22/2010

Executed on: 01/22/2010
At Los Angeles, California

I certify (or declare) under penalty of perjury that the foregoing is true and correct.

NOTICE OF PUBLIC HEARING

NOTICE, pursuant to the State of California Health and Safety Code Section 40725, is hereby given of a public hearing on February 24, 2010, at 9:00 a.m., before the Air Pollution Control Board of the County of San Diego, in Room 310, County Administration Center, 1600 Pacific Highway, San Diego, California, for the purpose of receiving public comments on and considering amendments to amended Rule 69.3.1 - Stationary Gas Turbine Engines - Best Available Retrofit Control Technology.

Proposed amended Rule 69.3.1 implements the California Health and Safety Code requirements to adopt rules reflecting every feasible measure to control nitrogen oxide (NOx) emissions. The rule applies to existing stationary gas turbines with a power rating of 1.0 megawatt (MW) or greater and to new turbines with a power rating of 0.3 MW or greater. The amendments to Rule 69.3.1 will establish daily NOx mass emission limits for older peaking turbines, resulting in NOx emission reductions by an average 0.9 tons/year. Additionally, the amendments will provide limited exemptions from the rule standards beyond those already provided in existing Rule 69.3.1 for certain types of startups for combined-cycle turbines and for periods of operation at low load for turbines equipped with lean pre-mix combustors. These limited exemptions are estimated to increase actual NOx emissions by about 0.25 tons per year in San Diego County. These exemptions are likely to be most significant for two existing large combined-cycle turbine power plants in the county. The rule amendments will specify new definitions and new monitoring and recordkeeping requirements to support the proposed mass emission limitation and limited exemptions. The amendments include other minor changes and clarification to the rule provisions.

The Board may consider modifications to the proposal, which may be deemed appropriate. Written comments concerning the proposal are also invited. Please submit written comments at least one week before the hearing date, addressed to:

Robert J. Kard, Air Pollution Control Officer
San Diego County Air Pollution Control District
10124 Old Grove Road, San Diego, CA 92131

Copies of the proposed amended Rule 69.3.1 may be examined or obtained at the Air Pollution Control District Headquarters, 10124 Old Grove Road, San Diego, California, or by visiting the District's Web Site at <http://www.sdapcd.org/info/boardsc/boardsc.html>. Copies of the proposed amended rule may also be examined at the office of the Clerk of the Board of Supervisors, Room 402, County Administration Center, 1600 Pacific Highway, San Diego, California. An analysis comparing proposed amended Rule 69.3.1 with

existing requirements, pursuant to Health and Safety Code Section 40727.2, Subsection (f), has been prepared. Copies of the analysis may be obtained from Janet McCue at (858) 586-2712, or at the District's address above. Specific information with respect to this matter may also be obtained by calling Robert J. Kard, Air Pollution Control Officer, at (858) 586-2700.

THOMAS J. PASTUSZKA
